OBJECTIVE

Aspiring Full-Stack Developer with hands-on experience in MERN and Android development. Passionate about building scalable applications and optimizing user experience. Seeking opportunities to apply my expertise in front-end and back-end development to create impactful solutions.

SKILLS

Frontend: HTML, CSS, JavaScript, React JS

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, Figma, REST APIs, Material Design, Tailwind CSS

WORK EXPERIENCE (Internship)

Design Webtech

Android Developer Intern

June 2024 - September 2024

Sports Arena (Sports Court Venue Booking Application)

- Designed interactive UI components using XML and Material Design, improving user engagement by 30%.
- Integrated REST APIs for real-time booking and payment processing.
- Optimized app performance, reducing crashes by 40% through rigorous debugging.

Bucapp(Online Visiting Card Application)

- Developed QR-based digital business card sharing functionality.
- Implemented Firebase Firestore for secure storage of user profiles and contact details.

PROJECTS

Fitness Factory [🔗](#)

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript

- Built an **Admin Panel** to manage clients, trainers, bookings, payments, and feedback.
- Created a **Trainer Module** for diet planning, class scheduling, and client feedback.
- Developed a **Client Module** for profile management, course enrollment, trainer browsing, and payment processing.
- Implemented **secure login/authentication** for different user roles (Admin, Trainer, Client).
- Integrated **analytics dashboards** for gym insights and attendance tracking.

Banking Management System [🔗](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, REST API

- Designed fully functional banking web app with role-based access (Admin, Employee, Customer) using **MERN stack**.
- Implemented secure **JWT-based authentication** and **role authorization** for multiple user types with middleware protection.
- Developed **admin panel** for employee/user management, loan oversight, and activity reporting.
- Created an **employee dashboard** to manage accounts, verify transactions, and resolve support tickets.
- Enabled **customers** to apply for loans, raise support queries, and track transactions with an intuitive UI.
- Built and integrated **RESTful APIs** for user registration, account management, transactions, and loan workflows.
- Ensured responsive, mobile-friendly UI with **Tailwind CSS** and enhanced UX using **React Toastify** and modals.

EDUCATION

Srinivas University Mangalore

Master's Of Computer Applications(MCA) - 8.22

january 2023 - October 2024
